

Cleanroom / Static Control

Mats / ESD Solutions

AP-113

Static Control Table Mat

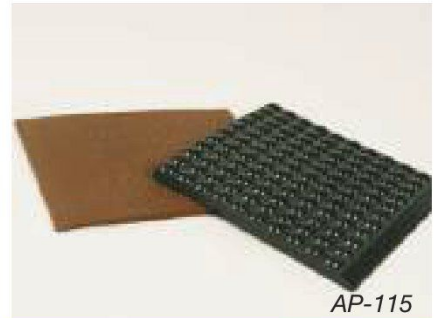

- 2-layer (static dissipative top and conductive bottom)
- Green, blue, brown, grey, black

AP-114

High Temperature ESD Mat

- 2-layer (static dissipative top and conductive bottom)
- Rough surface, 2mm thick

AP-115

Anti-Fatigue Mat

- Homogenous brown or black dissipative
- Cushioning effect

AP-116

Cleanroom Mat

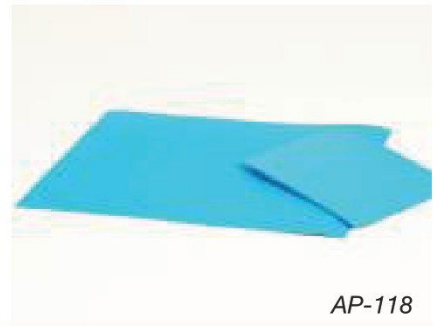

- Amide and silicon free
- Various colours, roll or cut to size

AP-117

Compostat Homogenous Mat

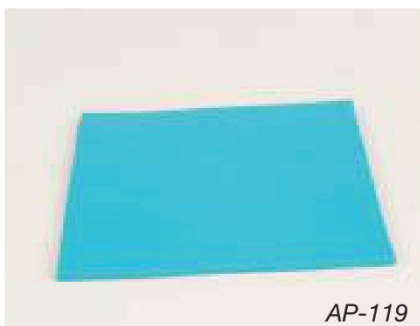

- Single layer homogenous material, 2 or 3mm
- Static Dissipative, blue, brown, grey

AP-118

Interstat Mat

- 3-layer (Dissipative top, conductive middle, cushion bottom)
- 3mm thick, blue or grey

AP-119

Pop Operator Mat

- Homogenous material, 6.5mm thick
- Static Dissipative, reduce shock

AP-120

Black Conductive Mat

- Conductive <10(E)5 Ohm
- 1.5mm thick

AP-121

Conductive / Dissipative Laminate

- Chemical & sulfur resistance
- Various colours

AP-122

Mat & Table Top Cleaner

- Removes surface dirt
- Maintain original surface resistivity of anti-static mats

AP-123

Static Dissipative Permanent Coating Solution

- Colourless paint that allows static to dissipate across surface

AP-124

ESD Spray

- Apply by spraying, wiping, dipping
- Non-staining
